RE: Continuation Under 37 CFR 1.60 of
Serial No. 132,557 entitled
5-Alkyl Nicotines and a Process for
Their Production of Jeffrey I. Seeman et al
Your Reference: D&O-79-30/I
Our Reference: PM 883B

Dear George:

Thank you for attending to the details related to filing of the above-noted continuation application. We have not received the filing receipt at this time, but expect it shortly.

Dr. Seeman has carefully reviewed the declaration and letter submitted with your transmittal dated 14 April. He has made several comments, corrections, and changes. With respect to the use of "d,l-" it probably would be simpler to state somewhere in the declaration and letter "that unless specified otherwise, all compounds are d,l-" rather than make the numerous changes noted by Dr. Seeman. He is certainly agreeable to this. The changes in Table I could easily be handled by footnotes. Note corrections in Table II.

After you have reviewed the documents, please feel free to contact us if you have any questions.

Very truly yours,

Susan A. Hutcheson
